-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 19 July 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1,3,4,7 and 9-15 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 1 and 3 is/are rejected.
- 7) ☒ Claim(s) 1,4,7 and 9-15 is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☒ The drawing(s) filed on 19 July 2005 is/are: a) ☒ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☒ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☒ All b) ☐ Some * c) ☐ None of:
1. ☒ Certified copies of the priority documents have been received.
2. ☐ Certified copies of the priority documents have been received in Application No. _____.
3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

Response to Arguments

Applicant's arguments, filed July 19, 2005, with respect to the rejection(s) of claim(s) 1-8 under 35 U.S.C. 103(a) have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Arvanitakis et al., U.S. Patent 5,005,939 previously cited as pertinent art.

Claim Objections

Claims 1, 14 and 15 are objected to because of the following informalities:

- a. Regarding claim 1, last two lines, there is no antecedent basis for "said cavity".
- b. Claim 14 is objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim *should refer to other claims in the alternative only*. See MPEP § 608.01(n). Accordingly, the claim has not been further treated on the merits.
- c. Regarding claim 15, last line, there is no antecedent basis for "said cavity".
Appropriate correction is required.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 2883

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1 and 3 are rejected under 35 U.S.C. 103(a) as being obvious over U.S. Patent 5,005,939 to Arvanitakis et al.

Regarding independent claim 1 as claimed, Arvanitakis et al. teach an optical module comprising a first substrate (Fig 2, ref sign 27), an electronic device (Fig 2, ref sign 65) provided on the substrate, an optical device (Fig 2, ref sign 31 or 33) electrically connected (Fig 2, ref sign 51) to the electronic device, a fiber assembly (Fig 2, ref sign 77) optically coupled to the optical device, a housing including a base (Fig 2, ref sign 100 is the ledge of the base) for mounting said optical device and said fiber assembly thereon and a cover (Fig 2, ref sign 21) for enclosing the electronic device and the optical device cooperated with the base and first substrate, said base having an opening (Fig 2, ref sign 101) through which said first substrate is set to expose said electronic device within a cavity (Fig 4, ref sign 95).

Regarding claim 3, the cover has a first groove (Fig 4, edge along cover near ref sign 35) having a pair of surfaces (Fig 4 where vertical surfaces fit around left and right edges of receiver 31 top part) for securing the fiber assembly and the base has a second groove (Fig 4, edge along base near ref sign 23) having a pair of side surfaces (Fig 4 where vertical surfaces fit around left and right edges of receiver 31 bottom part) for securing the fiber assembly.

Allowable Subject Matter

Claims 4, 7, and 9-13 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter:

Regarding dependent claim 4, the prior art of record, taken alone or in combination, fails to disclose or render obvious a second groove including a pair of grooves, one of said pair of grooves securing the ferrule and the other of said pair of grooves securing the optical fiber in combination with the rest of the limitations of the claim.

Regarding dependent claim 9, the prior art of record, taken alone or in combination, fails to disclose or render obvious a wiring member for connecting the first substrate to a second substrate wherein the wiring member is resilient in combination with the rest of the limitations of the claim.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

Art Unit: 2883

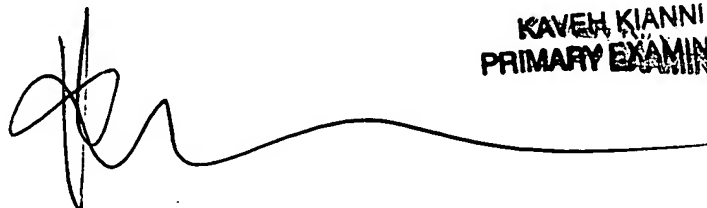

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
